

MARIA PAPADOPOULOU | DATA SCIENTIST

Email: mariapap2004@gmail.com **Phone:** + 44 (0)7498 310963

Summary

Data Science and AI MSc graduate with hands-on software development and applied commercial machine learning experience. Comfortable working across the full project lifecycle, from gathering client requirements to building and deploying solutions in Python, C#, .Net, PyTorch, and SQL. Enthusiastic about data and AI, quick to pick up new tools and technologies, and keen to bring that curiosity and technical grounding to a team where I can keep learning while contributing.

Education

MSc - Newcastle University

Master of Science in Data Science and AI (Expected Graduation: December 2026)

- **Dissertation – From Patch Features to Slide Diagnosis: Comparing Multi-Instance Learning Methods for Cancer Classification**
Compared four multi-instance learning approaches for cancer classification using CAMELYON16 whole-slide image data. Built and evaluated the models in PyTorch using five-fold cross-validation, with the best model achieving 95.5% accuracy.

BSc - Newcastle University

Bachelor of Science in Computer Science (Graduated: 2025, 2:1 with Honours)

- **Dissertation – Predicting Football Injuries Using Machine Learning**
Developed and compared machine learning models using football performance and injury data, including engineered workload features such as match congestion and recovery time. XGBoost achieved 81% accuracy.

Experience

Software Developer Intern - VisionSoft

Limassol, Cyprus | June – September 2023 | June – September 2024 | May – August 2025 |

- Worked directly with clients to understand their requirements, then helped design, develop, test and implement software solutions based on their needs.
- Developed SAP Business One add-ons using C# and .NET and worked on cross-platform mobile applications using .NET MAUI.
- Helped build a Python-based AI web service that could read invoices and other documents, extract relevant information and pass the extracted information back into the client's mobile application.
- Participated in both SAP events, “SMB Innovation Summit – Dublin, Ireland” and “SAP Partner Summit for SMB - Vienna” as a business assistant and representative for VisionSoft.

Data Analyst Intern - National Innovation Centre for Data

Newcastle Upon Tyne, UK | March 2026 |

- Worked as part of a team on a challenge set by Accenture, meeting with their team to clarify the problem and define what the team needed to investigate.
- Analysed relevant data, used the findings to develop recommendations around local graduate engagement and presented the final recommendations and findings to Accenture.

SAgE Faculty Ambassador - Newcastle University SAgE Faculty

Newcastle Upon Tyne, UK | September 2025 – August 2026 |

- Represented Newcastle University at open days, campus tours, and outreach events, delivering presentations and engaging with prospective students to share my academic experience and answer questions about student life and degree programmes.

Skills

- **Programming:** Python, C#, Java, C++, SQL
- **Data & AI:** PyTorch, scikit-learn, pandas, NumPy, Machine Learning, Deep Learning
- **Development:** .NET, MAUI, Flask, FastAPI, MySQL, SQLite, Git, GitHub, Azure, SAP Business One
- **Languages:** Greek (native), English (fluent)
